

PPM WEEK 2017

INVEST A WEEK, SAVE A YEAR

STRATEGIC PROJECT SOLUTIONS®

The engineering and construction industry is in crisis. McKinsey & Co. reports that 98% of projects fail to achieve stated business objectives, and a longer-term industry outlook from EY suggests that project delivery success is actually decreasing. Cost overruns and schedule delays are now the norm, with research from Oxford University indicating that nine out of ten megaprojects experience both. These repeated and measurable failures in the existing approach to project delivery must be addressed.

One major contributing factor is the engineering and construction industry's current approach to supply chain management. Project Production Institute (PPI) research indicates that the supply chain network is dominated by contracting and procurement thinking, which leads to unintended consequences such as increased cost, schedule duration, risk of safety incidents and reduced quality.

Effective supply chain management must consider not only contracting and procurement strategies, but must also address production-related factors including the physical flow of materials, supplier lead time and control of work-in-process.

Speakers and invited participants from industry and academia, including representatives from BHP, Chevron, Google, Microsoft, Sasol, Stanford and UC Berkeley will convene at PPM Week 2017 to better understand the influence supply chains have on overall project outcomes and the role that effective PPM has in addressing the issue.

Four days of invite-only events will enable participants to challenge industry norms of repeated project failure, understand the impact of current supply chain practice and explore strategies to optimize performance throughout the supply network.

Learn how fundamental PPM principles and methods address this critical gap in the current approach to project delivery, benefiting cash, cost and schedule. Register today.

PPI research indicates that the current approach to supply chain management is a major contributing factor in poor project delivery

INTRODUCTION TO PPM

TUESDAY – 28 NOV 2017

OVERVIEW

This PPI introductory seminar will enable participants to understand the dynamics related to project production systems, learn what can be done to positively influence them and in so doing, ensure project objectives are achieved.

This interactive session sets the foundation for those new to Project Production System thinking and prepares for the following days.

LOCATION

Merchant's Exchange Club, 75 Leidesdorff Street, San Francisco

WHO SHOULD ATTEND

Those new to the Project Production System framework

MORNING

7:30 AM	Registration and Hosted Breakfast
8:30 AM	Opening Remarks and Kickoff
	Current Situation and Implications
	Why Projects Don't Achieve Objectives
	The Critical Gap in the Current Approach
	Unintended Consequences of Various Solutions

LUNCH

12:00 PM	Hosted Lunch
-----------------	--------------

AFTERNOON

1:00 PM	Project as Production System Framework
----------------	--

EVENING

5:00 PM	Seminar Concludes
----------------	-------------------

PPI SYMPOSIUM

WEDNESDAY – 29 NOV 2017

OVERVIEW	<p>PPI's 4th Annual Symposium brings together practitioners from industry and academia to explore the implications supply chain management approaches have on overall project outcomes.</p> <p>Participants will learn how effective Project Production Management can improve supply chain performance for capital projects through presentations and discussion of the latest research and development on the topic.</p>	
LOCATION	<p>Julia Morgan Ballroom, 465 California Street, San Francisco</p>	
WHO SHOULD ATTEND	<p>Owners, academics and others interested in the research, development, dissemination and application of the PPM body of knowledge</p>	
MORNING	<p>7:30 AM 8:30 AM</p>	<p>Registration and Hosted Breakfast Opening Remarks and Kickoff Introduction to PPI Supply Chain Management (SCM) Defined Implications of Less than Effective SCM Lean vs. PPM Value of Lead Time Compression</p>
LUNCH	<p>12:00 PM</p>	<p>Hosted Lunch Annual Technical Award of Excellence</p>
AFTERNOON	<p>1:00 PM</p>	<p>Keynote Address Lead Time Compression for Major Equipment Implications of the Drive to Modularization Effective Supply Flow Control</p>
EVENING	<p>7:00 PM</p>	<p>Hosted Dinner – Villa Taverna</p>

SPS FORUM (DAY 1)

THURSDAY – 30 NOV 2017

OVERVIEW SPS' Annual Production Forum is an invite-only event where SPS customers come together to explore and share their application and learning related to deployment of PPM principles, methods and tools.

In keeping with the theme of PPM Week 2017, this year's Production Forum will focus on supply chain management.

LOCATION Four Seasons – Yerba Buena Room, 757 Market Street, San Francisco

WHO IS INVITED SPS customers and partners

MORNING

8:00 AM	Hosted Breakfast
8:30 AM	Opening Remarks and Kickoff
	Overview of Production System Dynamics
	Production System Modeling and Optimization
	Lead Time Compression

LUNCH **12:00 PM** Hosted Lunch

AFTERNOON **1:00 PM**

- Effective Supply Flow Control
- Onsite Materials Management
- SPS|PM Production Mapper, Modeler and Optimizer

EVENING **7:00 PM** Hosted Dinner – The French Club

SPS FORUM (DAY 2)

FRIDAY – 01 DEC 2017

OVERVIEW SPS' Annual Production Forum is an invite-only event where SPS customers come together to explore and share their application and learning related to deployment of PPM principles, methods and tools.

In keeping with the theme of PPM Week 2017, this year's Production Forum will focus on supply chain management.

LOCATION Four Seasons – Yerba Buena Room, 757 Market Street, San Francisco

WHO IS INVITED SPS customers and partners

MORNING	8:00 AM	Hosted Breakfast
	8:30 AM	PPM Week Reflection SPS Developmental Roadmap Effectively Promoting PPM

LUNCH	12:00 PM	Hosted Lunch
--------------	-----------------	--------------

AFTERNOON	1:00 PM	Forum concludes after lunch
------------------	----------------	-----------------------------

EVENING		No Scheduled Event
----------------	--	--------------------

LOGISTICS

PPM WEEK 2017
SAN FRANCISCO, CA

TUESDAY 28 NOV – FRIDAY 01 DEC 2017

DAY 1
Introduction to PPM

Merchant's Exchange Club
75 Leidesdorff Street

DAY 2
PPI Symposium

Julia Morgan Ballroom
465 California Street

Dinner – Villa Taverna, 27 Hotaling Place

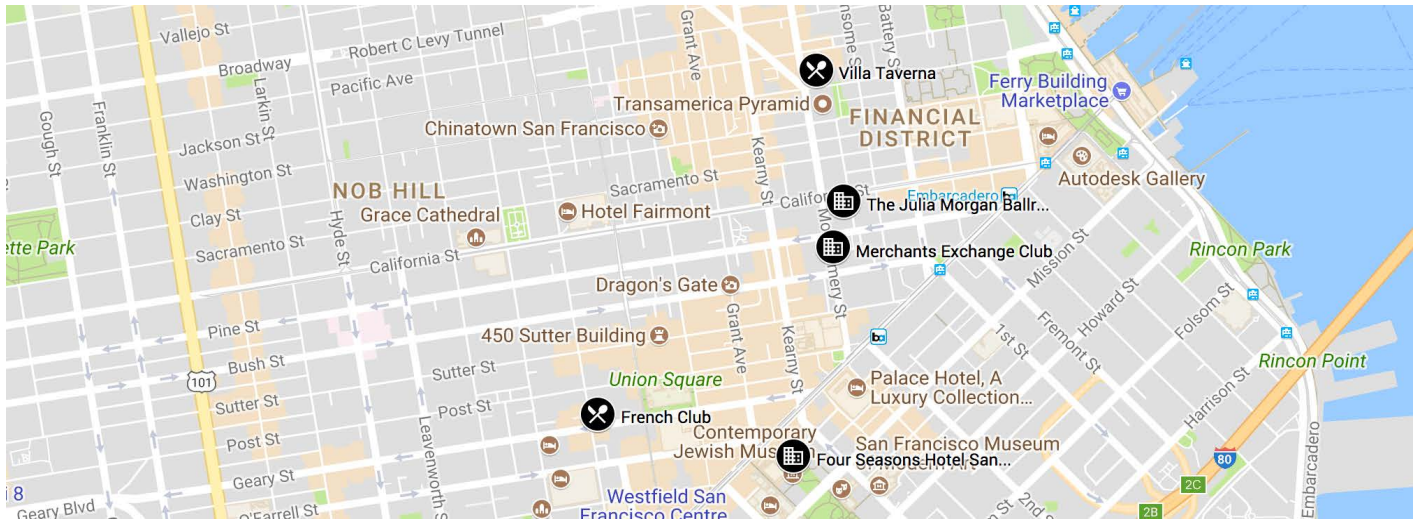

DAY 3
SPS Forum

Four Seasons Hotel – Yerba Buena Room
757 Market Street

Dinner – The French Club, 414 Mason Street, Suite 801

DAY 4
SPS Forum

Four Seasons Hotel – Yerba Buena Room
757 Market Street

LOGISTICS

PPM WEEK 2017
SAN FRANCISCO, CA

TUESDAY 28 NOV – FRIDAY 01 DEC 2017

ACCOMODATIONS

We are pleased to recommend the Four Seasons Hotel for participants of PPM Week 2017.

For special rates, book here: <http://www.fourseasons.com/sanfrancisco/sps-forum.html>
